SHOW UP AND SPEAK UP FOR OUR FUTURE!

Did we hear you right that Managing Growth and Community Character are essential to the future of our Yampa Valley? Vision 2030 is in the home stretch and this is your LAST CHANCE to have a say on:

- **COMMUNITY CHARACTER** – We have heard that the various aspects of community character such as our western heritage, family friendliness and small town feel are essential values to retain while defining how we grow. *DO YOU AGREE?*
- **MANAGING GROWTH** – From Economic Sustainability to Transportation to Housing Patterns -- What exactly does ‘managing growth’ mean? How does it work? It’s high on everyone’s list and how well we manage our growth determines our future community character. If you have an opinion on what MANAGING GROWTH means, then show up.
- **PRIORITIES FOR THE FUTURE WILL BE ESTABLISHED** – If you don’t say anything now, then when? Be a part of your future by setting our priorities now.

Come to one of our November community gatherings and help us refine the recommendations and set priorities for our future. The Vision 2030 Final Report of Recommendations will be published in the Spring of 2009.

WHAT IS VISION 2030?

Vision 2030 is a collaborative citizens’ effort to help define the future of the Yampa River Valley. It is capturing the values and important qualities of our communities to facilitate future decision making by...

- gathering the wisdom of valley residents,
- updating the 1994 Vision 2020 Report, and
- defining a vision that retains and sustains our “Heart and Soul” assets for generations to come through community stewardship.
